AC - standard charging // DC - fast charging

(1) net prices excl VAT, valid as of 01-03-2026

(2) incl. energy taxes and fees

Prices are based on consumed energy (kWh) and time (Min)

(3) a blocking fee depends on the session's start time – if it begins within the fee window, the fee applies even if parts of the parking time fall outside

Below is a list of the main charge points in the networks of charging operators in Belgium

A complete list of the more than 938 000 charge points is available in the DKV Mobility App and the Charge Assist App
